

HEALTH SAFETY & ENVIORNMENT (HSE) POLICY

MJEPS management acknowledges their responsibilities ensuring their employees, client's employees, subcontractors and other third parties enjoy safe and healthy working and living condition and protecting the environment. We define the following objectives in support of the fulfillment of our obligations.

We are committed to:

- Implement measurable goals for promoting continual improvement towards zero Accident / Incidents and the protection of Health, Safety and Environment.
- Recognize the importance of the on-going involvement and commitment of management and employee in the health, safety and environment.
- Assuming preventive rather than retroactive measures.
- Providing opportunities for educating, training and promotional activities for all our employees to enhance HSE consciousness, discipline and practices.
- Ensure that employees & sub-contractors comply and practice HSE in accordance to the company, clients and government policies and standards;
- Closely monitor the state of well-being and safety of all our employees and the public.
- Documentation, Inspection and Audit by using procedures that clearly instruct personnel on safe working practices.
- Maintenance of equipment, machinery, tools and vehicles to a guaranteed safe working condition and implement appropriate, documented maintenance.
- Complying with International and Local regulations concerning the classification and operation of equipment, vehicles, tools, procedures and personnel.

Mohammed Al-Jarallah Equipment's & Petroleum Services W.L.L is responsible and committed to the health and safety of people and protection of the environment & firmly believe this commitment adds value to their customers and employees.

The good HSE management system is a good business.
